PRECISION SHEET METAL
COMPONENTS THAT **POWER**
INDUSTRIES

Reliable, robust, and refined engineering solutions – specializing in sheet metal parts, exhaust assemblies, clamps, and brackets for global automotive and industrial applications.

About Us

We, Sunrays Engineering Works, established our operations in 1985 as manufacturers, exporters and suppliers of Automotive Parts such as clamps, springs, gaskets and fasteners. Under the supreme leadership of Mr. Pradeep Goyal, a visionary and a domain expert, we have come a long way in creating an enviable reputation for ourselves in the industry. We offer a wide range of superior quality industrial products, which are manufactured in adherence to standardized processes.

We take all possible initiatives to keep are team upgraded and abreast of the latest market trends. We undertake constant research and development activities so as to make an in depth analysis of the needs and requirements of our customers. We even hold a variety of workshops for our staff on a periodical basis so that our employees are always well informed of their external market environment. All these efforts have been a crucial part of our success story, since without these we may not have been able to have such an impressive client base. Due to our quality products we have attained a huge clientele from all across the globe.

We have state of the art facilities for production and research and development. Backed by our strong infrastructural setup, we have been able to consistently deliver on customer specifications, providing them with a large number of customized products. All this while, we have maintained highest standards of quality for all our products. Consequently, we have attained the "preferred supplier" status in many of our clients' minds. This has only been possible due to sheer diligence, perseverance and innovation on our team's part.

PIPE CONNECTOR

Our Vision

At Sunrays Engineering Works, our vision is to be a globally admired leader in precision sheet metal and exhaust system engineering — known for quality, reliability, and innovation.

We aim to illuminate industries worldwide through engineering solutions that empower progress, protect the environment, and enhance performance.

Our Focus

Global Presence — Expand across Asia, Europe, Australia, and North America, proudly representing “Made in India” through trusted partnerships and engineering excellence.

Innovation — Drive continuous improvement with modern technologies, smarter designs, and sustainable materials.

Sustainability — Integrate eco-friendly, energy-efficient, and recyclable practices to protect our planet.

People Empowerment — Foster creativity, teamwork, and growth through continuous learning and ownership

Legacy of Trust — Build enduring relationships founded on honesty, precision, and partnership

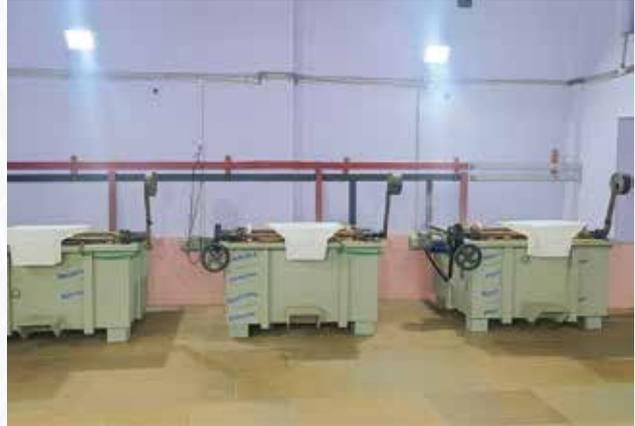

“To illuminate industries with world-class engineering — proudly made in India, trusted worldwide.”

Our Mission

Our mission is to engineer and deliver precision sheet metal components, clamps, and exhaust assemblies that strengthen industries and build lasting partnerships.

We unite engineering intelligence, manufacturing excellence, and customer satisfaction into one promise — the Sunrays standard of quality.

Our Commitments

Deliver Excellence — Every product meets international standards of precision, durability, and performance.

Adopt Advanced Technology — Continuous investment in CNC, laser cutting, automation, and robotic inspection drives our perfection.

Empower Customer Success — We provide customized, cost-effective solutions that enhance efficiency and reliability.

Zero-Compromise Quality — Strict quality control, audits, and certifications ensure total consistency and safety.

Support “Make in India” — We proudly deliver globally competitive products made in India for the world.

“Driven by precision. Defined by integrity. Dedicated to progress.”

Our Core Values

Our values guide every decision, design, and delivery at Sunrays Engineering Works – defining who we are and how we shape the future.

INTEGRITY

We act with honesty, fairness, and respect; our reputation rests on keeping our promises.

INNOVATION

We constantly pursue new ideas, materials, and smarter manufacturing methods.

QUALITY

Every product is engineered with precision from the start – not inspected in later.

CUSTOMER FOCUS

We listen, adapt, and deliver to exceed customer expectations.

SUSTAINABILITY

We operate responsibly, reducing waste and protecting the environment.

TEAMWORK

Collaboration and respect drive our collective success.

EXCELLENCE

We aim beyond expectations, turning challenges into opportunities.

In Essence

Sunrays Engineering Works stands for commitment, craftsmanship, and continuous improvement — rising every day brighter, stronger, and more innovative to power industries worldwide.

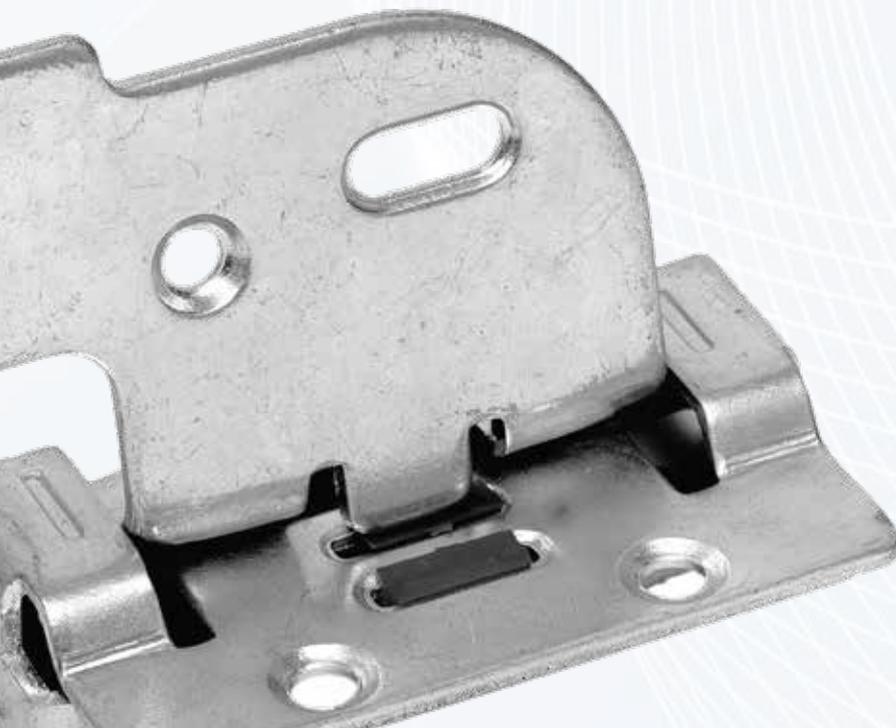

QUALITY POLICY

At Sunrays Engineering Works, quality is our culture. We design and deliver precision sheet metal components, clamps, and assemblies that meet global standards through continuous improvement, process control, and employee excellence.

We ensure zero defects, on-time delivery, full traceability, and compliance with ISO 9001 — building quality into every stage, not inspecting it later.

SHEET METAL COMPONENT

Available In All Sizes

Environmental Policy

We are committed to sustainable manufacturing and eco-friendly practices that minimize waste, pollution, and energy use.

Our focus is on responsible production, recycling, and renewable efficiency, in full alignment with ISO 14001.

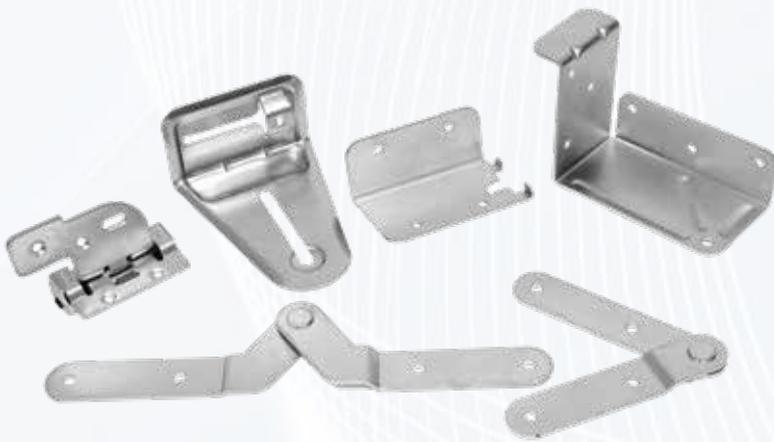

We strive to grow responsibly – protecting the planet for future generations.

Occupational Health & Safety (OHS) Policy

People are our greatest strength.

We ensure a safe, healthy, and hazard-free workplace through risk assessment, training, and preventive systems, guided by ISO 45001.

Safety is everyone's responsibility – a promise we uphold every day.

SHEET METAL COMPONENT

Available In All Sizes

Our Integrated Commitment

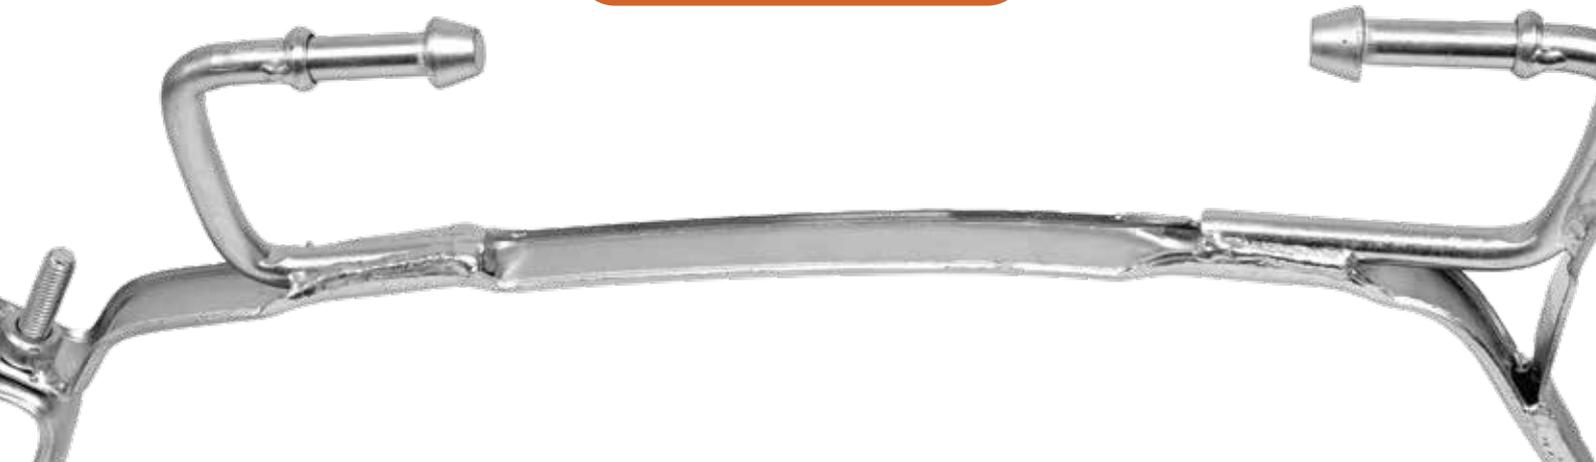

Our Quality, Environmental, and OHS systems work together as one Integrated Management System (IMS) — ensuring every product, process, and person contributes to a safe, sustainable, and superior future.

Quality drives our products. Environment inspires our responsibility. Safety protects our people.
That's The Sunrays Way.
